

For Immediate Release

January 16, 2007

GAMIX BASESYSTEM BETA 3 AVAILABLE.

Gamix, Inc., a Pennsylvania corporation based in Scranton, PA, has announced the availability of Basesystem Beta 3, a Mandriva-based Linux build that facilitates the creation of boot CDs so developers may create Gamix versions of their original software.

Basesystem Beta 3 is available as an ISO download at:  
<http://www.tradebit.com/filedetail.php/1128970>

Gamix has been established to provide an open gaming alternative to proprietary platforms such as Sony, Nintendo, and Microsoft Xbox.
